Vatican II  
Legacy & Mandate

## The Symposium

In commemoration of the 60 years since the opening of the Second Vatican Council and in the context of the manifold synodal processes taking place in the Church on local and global levels, this seminar will consider the groundbreaking legacy and mandate of Vatican II for the renewal of the Church in intercultural, intercontinental and global church perspectives.

## The Project

The international theological research project **Vatican II – Legacy & Mandate** aims to elaborate an intercontinental commentary on the documents of Vatican II, a project with about 120 theologians working together from the different continents and their specific cultures, faith and church contexts. The project is now underway in five Continental groups (Africa, Asia, Europa, Latin America, and USA-Canada-Australia) and 16 Commentary groups, each with members of the different Continental groups to develop together a “multifaceted” commentary of each Conciliar document.
